WORK EXPERIENCE

Full Stack Development Intern (Zetheta Algorithms Private Limited)	April 26 - Present
- Built a responsive multi-step loan application form using HTML, CSS, and JavaScript - Implemented step-by-step navigation for user input (personal details, income details, loan details, etc.) - Added form validation to ensure accurate and complete data entry. - Improved user experience with progress indicators and dynamic form handling.	
Software Developer Intern (Elsner Technologies Private Limited)	Selected (Not Joined)
- Selected for Software Developer Intern - Did not proceed with joining due to personal/other commitments	

PROJECTS

Insiders Education – Educational Web Platform LINK	August 25 - October 2025
- Built a responsive educational website using HTML, CSS, and JavaScript, with structured learning modules and a clean, user-friendly interface - Integrated MySQL for basic data handling and utilized AI tools for debugging, content creation, and documentation support	
Online Examination System – Java / Spring Boot / MySQL LINK	November 25 - February 2026
- Developed a full-stack online examination system enabling secure online tests with real-time question delivery, timed assessments, and automated result evaluation - Implemented backend database integration for user management, exam data storage, and scoring logic, ensuring reliability, scalability, and smooth user experience
